

# DESCENDANT OF IVAN

## MENSHUNTER

(GANGREL ONLY)

Ivan Menshunter was a formidable Gangrel in his day. He was adept at living in the city, unlike other members of the Gangrel Clan. He was also a master over Protean, able to do amazing things with it.

We was a fierce fighter as well.

- **Coyote:** You are more adept in the City than other Gangrel, as a result, you gain Obfuscate instead of Fortitude as an In-Clan Discipline. You also gain 5 dots of the Stealth Skill for free.

- **Protean Blood:** Once per hour, you can activate a Protean power without paying the costs (Rouse Check and action) normally required to activate that power. This effect happens on your initiative and cannot be combined with effects that allow you to take actions before or after your initiative in the round.

- **Shape of the Beast's Wrath:** When you take the Protean Power of Metamorphosis, you gain the Huge benefit for free. This means that when you take the power, you get Huge plus 2 other benefits to start off with. Additionally, you receive a +5 bonus to your Brawl tests when in this form.
